- 1** Place the seat face down on a level surface. Insert legs into the four corners of the seat. Depress the push button at the tip of the leg, and push the leg into the seat until the push button protrudes out of the hole. The push button should snap and lock the leg into position.

Adjust all legs to the same desired height by depressing the push button and sliding the leg up or down. Slightly twist each leg to ensure push buttons are fully engaged and stable.

- 2** Turn the seat on its side so that the backrest cutouts face upward. Place backrest tube against the bottom of the seat and align the tubing and screw holes. The end of the backrest tube with the push button will point away from the legs.

Insert knobs with washers into the screw holes. Tighten knobs to secure backrest tubes to the seat. Repeat for the other side.

- 3** Place bath seat on its legs and install the backrest onto the backrest tubes. Depress push buttons on the backrest tubes and slide the backrest down until it snaps into place and is secure. Ensure all parts are secure before using bath seat.

WARNING

Read all instructions carefully and consult with a qualified professional before installing to avoid possible injury. **NOVA Medical Products shall have no liability for any damage or injury resulting from improper assembly or misuse of this product.**
